Lagois Drafting and Construction  
5921 Prince of Wales  
North Gower, ON  
K0A 2T0

Dear Herb:

I just wanted to let you know how pleased we are with our new family room. We knew early on that we had made the right decision in choosing your company. You showed the creative vision needed to blend a new structure with our century-old farmhouse. You also had an eye for detail, providing us with the most detailed estimate of all the companies we approached.

Sophie Drouin worked with us to craft our ideas into workable plans and it was a pleasure to deal with her. Your tradespeople were professional, reliable and maintained a clean worksite throughout the entire construction process.

Lastly, I can't say enough about Chad Kean. He was friendly yet professional and provided us with the information we needed to make decisions. He answered our questions, gave us sound advice and really took care of us during the project. He is a tremendous asset to your organization.

Thanks once again,
